Re: Alvarado v. Stander

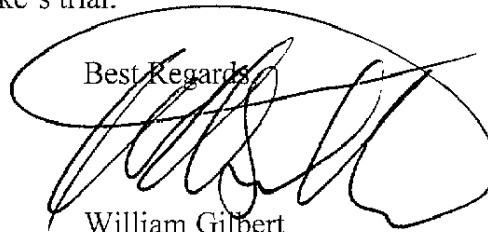

Dear David,

I wanted to take a minute to personally thank you for the time and effort you put in while assisting us with the Alvarado trial. Although we were seeking a seven-figure result, considering the fact that we were dealing with a minor impact soft tissue case, the \$650K award was a great result. It is my understanding that this is the highest jury award ever handed down by a Grant County jury in a motor vehicle case involving soft tissue injuries. We would not have been able to obtain this award without your personal assistance as well as the aid of your MyoVision dynamic surface EMG technology.

In a previous conversation you mentioned that upon completion of this trial you would like me to write a letter outlining the litigation benefits of the use of your product. I would be more than happy to put something together for you. In fact, if you are open to it, I would like to discuss the possibility of co-authoring an article with you for the Washington State Bar News; Washington State Trial Lawyers News; and the Association of Trial Lawyers of America monthly publication, "Trial." If you're interested, please advise. Otherwise, just let me know what you would like from me and I'll get it done.

Again, I, along with Garth, and Michael & Danielle Alvarado thank you for taking time out of your busy schedule to assist us with Mike's trial.

Best Regards,

William Gilbert
Attorney At Law
